Perth-Based Tech Company Renowned for High Service Delivery Standard Receives Cisco® GOLD Partner Accreditation

Perth, WA – October 12th, 2022 – R1i Technology, one of Australia's fastest growing and highly skilled technology services providers, announced today that they are officially accredited as a **Cisco® GOLD Certified Partner,** a distinction indicating that the company has satisfied the rigorous personnel, support, and technical specialisation requirements to achieve Cisco's highest partner level.

R1i Technology has been a Cisco Certified Partner since 2012. Cisco Gold Certification places R1i Technology in the top echelon of technology integrators and advisers. Combining Cisco's expertise with their value-added services portfolio uniquely positions R1i Technology to serve as the trusted technology partner.

Customers want confidence when engaging with a technology partner. Relying on manufacturers, like Cisco, to certify and rank the technical sophistication and delivery capabilities means R1i Technology possess the deepest level of Cisco Lifecycle Services expertise and demonstrate a measurably high level of customer satisfaction.

"We are proud to display our Cisco Gold Certified badge at every opportunity," said Matt Palm, R1i Technology Chief Technology Officer. "It sets an immediate standard with

customers and recognises the expertise of our engineering team. We consistently utilise their experience and expertise to exceed customer expectations for consulting, design, implementation and support, every day."

Cisco requires that GOLD Certified Partners demonstrate the broadest range of expertise across all enterprise architectures, including Networking, Wireless, Security, Collaboration, Data Centre Virtualisation and Customer Success.

Maintaining the multiple technology specialisations required for Gold Certification means R1i Technology can integrate technologies to deliver more sophisticated solutions across Cisco's full suite of networking, cloud and systems management, data centre, security, voice, and wireless solutions that meet various business' requirements.

About R1i Technology

R1i Technology is a West Australian success story. Launched in 2012 and still managed by the same executive team, R1i Technology has grown to become Cisco's largest Western Australian partner.

R1i Technology is an award-winning, leading Australian technology consulting and solutions company delivering a genuine mix of innovation, service, outcome-based solutions and thought leadership. Being the technical advisory for many of WA's largest and most complex organisations, R1i Technology is renowned for their deep technical expertise.

They have recently expanded organically into the South Australian market, having an immediate impact, winning a number of significant local customers.
